J. Construct. Steel Research **15** (1990) 343–344

CONTENTS OF VOLUME 15

Numbers 1 & 2

SPECIAL ISSUE ON COMPOSITE CONSTRUCTION—BUILDINGS

Foreword 1

Behavior of Composite Frames during Construction 3
CESAR R. VALLENILLA & REIDAR BJORHOVDE (USA)

Plastic Design of Continuous Composite Slabs 23
J. W. B. STARK & J. W. P. M. BREKELMANS (The Netherlands)

The Deformation of Composite Beams with Discrete Flexible Connection . . 49
H. D. WRIGHT (UK)

Partial-Interaction Analysis of Composite Beams with Profiled Sheeting and Non-welded Shear Connectors 65
MICHEL CRISINEL (Switzerland)

Semi-Rigid Composite Construction 99
ROBERTO T. LEON (USA)

Semi-Rigid Composite Action: Experimental Analysis and a Suitable Model . . 121
ROBERTO PUHALI, IZTOK SMOTLAK & RICCARDO ZANDONINI (Italy)

Design Method for Composite Columns with Unsymmetrical Cross-Sections . . 153
K. ROIK & R. BERGMANN (FRG)

Calendar 169

Contents of Related Journals 171

Number 3

A Parametric Stress Analysis of T/Y and K Square-to-Square Tubular Joints . . 173
AI-KAH SOH & CHEE-KIONG SOH (Republic of Singapore)

J. Construct. Steel Research (**15**) (1990)—© 1990 Elsevier Science Publishers Ltd, England. Printed in Great Britain

International Assessment of Design Guidance for Composite Columns . . 191
A. S. ELNASHAI, A. Y. EL-GHAZOULI & P. J. DOWLING (UK)

Approximate P-Delta Method for Sway Frames with Semi-rigid Connections . 215
H. SCHOLZ (Republic of South Africa)

Strength of Pipes Continuous over a Series of Saddle Supports 233
A. R. KEMP (Republic of South Africa)

Book Reviews 249

Announcement 252

Calendar 254

Number 4

Shear Connection between Composite Slabs and Steel Beams 255
R. M. LLOYD & H. D. WRIGHT (UK)

A Contribution to the In-plane Stability of Shallow Arches 287
H. SCHOLZ (Republic of South Africa)

Elastic Second-Order Analysis for Frame Design 303
FAISAL AL-MASHARY & WAI FAH CHEN (USA)

Stability of Monosymmetric Beam-Columns with Thin Webs 323
M. A. BRADFORD (Australia)

Calendar 341
